

PROPOSITION 65 STATEMENT

The State of California's Proposition 65, the Safe Drinking Water and Toxic Enforcement Act, became law in November 1986. Effective August 30, 2018, Proposition 65 has updated labeling requirements for businesses to notify consumers with "clear and reasonable" warnings of potentially hazardous chemicals present in products. Warning labels are required on all products that contain chemicals found on the state's list of over 850 compounds and must specify that the product contains chemicals "known to the State of California to cause cancer and birth defects or other reproductive harm."

Swarovski Professional has conducted a review of its product line for compliance with the Proposition 65 directive and determined that its loose crystals and forward integrated materials of its Elements Business are not subject to California Proposition 65 warning label requirements. As Swarovski Professional crystals and forward integrated materials are typically integrated into finished products, however, we recommend determining necessity to label based on the finished product.

If you have questions regarding Swarovski Professional crystals and forward integrated materials other products, please contact your account manager.
